## WORK EXPERIENCE

### Front-End Developer Trainee

Apr 2023- Present

BearIT OY | Tampere

Coding and Finnish language Course - learning to become a front-end developer. Studying and developing skills in HTML, CSS, JavaScript, Tailwind CSS, GitHub, React (in-progress) and Agile practices, with help of Udemy courses. During the course I was involved in developing a project about plant care. Implemented and styled the front-end components that meet the requirements of our mocks and fulfil our user stories.
